

2021 CPA Day at the Gold Dome is Going Virtual

**This agenda will be updated as more information is made known.*

Due to COVID-19, GSCPA's 2021 CPA Day at the Gold Dome is going virtual! While our traditional in-person event along with meetings with legislators are not going to work with current state and local public health guidelines, the value of this important event remains the same.

Our objective is to help state legislators understand the issues facing CPAs in the state of Georgia. Every year, numerous pieces of legislation are introduced that can potentially impact you, your profession, or your clients. The relationships with our state and local elected officials are a foundational part of GSCPA's advocacy efforts and this unique opportunity brings a huge benefit to the profession not only in the current year, but in years to come as well.

Come join your fellow CPAs and Peers for this free virtual event. Plus, you'll receive 1.5 hours of CPE for free as well!

Register now for CPA Day at the Gold Dome!

Welcome
